1. Repair the layout of Newspage

- **Remove** import 'apiPage/NewsCard.dart':
- **Change** Newspage({key? key}) : super(key: key); to const Newspage({super.key});
- **Change** title: const Text('Post List') to title: Text('Post List'),
- **Change** body: post.body), to body: post.body),
- **Change** SizedBox(height: 20) to SizedBox(height: 20,),
- **Change** }), to },
- **Change** separatorBuilder: (context, index) { to separatorBuilder: (BuildContext context, int index) {
- **Change** itemCount: (snapshot.data as List<Getnews>).length); to itemCount: (snapshot.data as List<Getnews>).length);
- **Change** return const CircularProgressIndicator();}, to return Center(child: CircularProgressIndicator());},),

2. Repair the layout of detailnewspage

- **Change** const Detailnewspage({key? key, required this.getnews}) : super(key: key); to const Detailnewspage({super.key, required this.getnews});
- **Change** title: const Text('Detail Page'), to title: Text('Detail Page'),
- **Change** const Sizebox(to SizedBox(
- **Change** const Text('Body: '), to Text('Body :'),
- **Change** Text(getnews.body])), to Text(getnews.body),],),),
